ASAC 2018-2019 Committee Annual Summary

- 4 meetings (September 2018-March 2019)
- Thumb lock project has been completed – all rooms on campus now have thumb locks
- Lactation room project has been completed – rooms are all accessible and have informational material.
- A list of gender inclusive restrooms and location on campus has been created and sent to the Center for Gender and Sexuality to be posted on their website.
- Discussion continues about a central place to list information regarding location of lactation rooms and gender inclusive restrooms.
- Discussion about classroom chairs with attached desks that do not accommodate all students. An alternative has been identified.
- Discussion about how to identify interactive classrooms.
- Spoke with DASS about syllabus statement for students who need accommodations during a crisis.
- UCEN and UPAV projects are completed.
- Picasso started. Discussions about food concerns. Concerns have been addressed.
- Discussion of moving stryker chairs to more accessible locations in MSB and WSW. Faculty are interested in being trained on using stryker chairs.
- Discussion related to noise during class. Faculty can put signs out asking students to be quiet and reinforce by entering the hallway and asking students to relocate discussions.
- Tap Ride is up and running and faculty and students are using it.
- Discussion about making Harrison St. safer for pedestrians (especially our students and faculty).
- Discussion about the river project and status.
- University Tower is the number one priority for Capital Funding next year.
- Discussion of MSB addition. The addition will begin end of winter 2019 academic term and will be completed by fall of 2020 and available for students in fall of 2021.
- More space is now available in WSW as GEC and part of Art are moving to North Bank.
